

DIVYA SHREE M

MACHINE LEARNING ENGINEER

+91 90258 87880 • divyashreemohanavel@gmail.com • <https://www.linkedin.com/in/divya-shree-mohanavel/> • Chennai

Summary

Aspiring Machine Learning Engineer with a strong foundation in programming and object-oriented design, complemented by hands-on experience building data-driven projects using Python and machine learning libraries. Skilled in problem-solving, model development, and rapid prototyping, with collaborative mindset demonstrated through hackathon participation. Interested in leveraging data and intelligent systems to solve real-world a problems.

Experience

Altruisty (Internship)

Web Development Intern

Chennai, India

05/2025

Tech Stack: HTML, CSS, JavaScript, Firebase, Gmail API

- Developed a platform to streamline communication between HR, mentors, and interns.
- Implemented secure authentication and role-based access control.
- Built features for scheduling, feedback, and automated email notifications.
- Integrated frontend with real-time database for efficient performance.

Sri Sairam Techno Incubation (Internship)

Eco-Sweep an Autonomous Robo

Tambaram, India

02/2026

Tech Stack: Machine Learning, IoT, Data Pipelines, Cloud Analytics

- Developed a waste management system using IoT-based smart bins.
- Collected and monitored real-time data.
- Applied machine learning to analyze waste patterns and predict collection needs.
- Detected segregation issues to improve efficiency.
- Built a system for real-time tracking and reporting.

College PROJECT

YouTube Audience Insight Engine

Location

03/2026 - Present

Tech Stack: Python, NLP, Machine Learning, YouTube API

- Developed an ML-based system to analyze YouTube audience data.
- Used NLP techniques to extract insights from viewer data.
- Applied clustering and sentiment analysis to understand audience behavior.
- Identified content gaps and trends.
- Generated recommendations to improve engagement and content strategy.

Skills

Programing Language

Python, C++, SQL

Tools

scikit-learn, TensorFlow, PyTorch, Transformers, NLP, Git, Jupyter, REST APIs

Hands on Experience

Unstructured Data Processing, Clustering, Sentiment Analysis, Model Evaluation

Education

Sri Sairam Engineering College

Bachelor of Engineering in Electronics and Instrumentation. GPA - 8.3

St.Joseph's.Matriculation.Higher.

Scndary.School
Higher Secondary . Percentage - 73/100

St.Joseph's.Matriculation.Higher.

Scndary.School
SSLC. Percentage-94/100

KEY ACHIEVEMENTS

Xynthra - Hackathon Won Xynthra-hackathon conducted by Rajalakshmi Engineering College

Patent publication on Eco-Sweep an Autonomous Robo

SIH winner of 2024 and 2025 edition
